- Cellular and Portable Telephones
- Laptop and Palmtop Computers
- PDAs
- Hand-held Instruments
- Anywhere Floating Contacts Are Required

In the expanding world of portable and hand-held electronics, you can place our Modular Contacts just about anywhere.

And with our worldwide network of sales offices and distributors, design teams and manufacturing centers, you can reach Bourns nearly anywhere, too.

Our *new 2.54mm 70AA Modular Contacts* complement our 4.0mm Model 70AD to give you even more options, applications and space-saving opportunities. They're available right off-the-shelf, so you don't have to waste time or money with custom-designed, custom-manufactured contacts. And with their rugged construction, captured contact spring and precious metal plating, they're built to last.

70AA and Bourns. Two contacts you can always trust. Connect with us today.
