

Components to Connect and Protect.

For connections you can trust, try our **4.0mm 70AD and 2.54 70AA Modular Contacts**. They're available right off the shelf, and with their rugged captured contact spring and precious metal plating, they're built to last. To prevent cell damage, Bourns offers **MULTIFUSE[®] Polymer PTC Resetttable Fuses**. Our MF-S and MF-LS Battery Strap models protect against faults up to 100 Amps.
